**Experience:** PE & DVT

*\*Disclosures: Inari Medical*

Dr. Khalsa is a Vascular and Interventional Radiologist who specializes in minimally invasive image-guided procedures, with a special interest in image-guided cancer therapy and endovascular treatment of arterial and venous disease. Dr. Khalsa is a California native, graduating Magna Cum Laude in Biomedical Engineering from the University of Southern California as an Engineering Merit and Presidential Scholar.

Dr. Khalsa has authored several peer-reviewed publications and given presentations in the field of minimally invasive therapies. He has been awarded grants in academic development and research, and has led multiple medical device development projects. Most importantly, Dr. Khalsa believes in a patient-centered and technology-enabled approach to healthcare.
